MISSION

To consistently create maximum value for our customers

VISION

To become No.1 HVAC solution provider in China, to become a respected brand across the world

CORE VALUE

Integrity, Openness, Oollaboration, Shared Success

ABOUT US

Zero Technologies, a professional manufacturer established in 2013, offers a comprehensive range of high-quality and affordable HVAC products, services, and customized solutions for residential, commercial, and industrial applications. We leverage our deep understanding of the global HVAC market and Chinese supply chains to deliver exceptional value to our clients.

With a commitment to quality and innovation, Zero Technologies prioritizes cutting-edge technology and maintains advanced production facilities and national testing labs. Our team of over 70 experienced R&D engineers is dedicated to developing solutions that meet your specific needs. we've served over 1,000 projects in more than 130 countries and regions through a network of over 50 overseas agents.

At Zero Technologies, exceptional customer service is paramount. We ensure a worry-free purchase experience by understanding your needs, addressing your expectations, and providing solutions that solve your problems. Contact Zero Technologies today to discuss your HVAC requirements and discover how we can deliver a world-class solution for your project.

BRANDS

OUR BRANDS

- OWN BRAND, COST EFFECTIVE OPTION WITH GREAT QUALITY
- Mini split, Light commercial, VRF, Package units, Chillers, AHU, FCU, Accessories
- Self-owned brand of Zero Technologies.

- USA TOP BRAND • 130 YEARS HISTORY
- TOP WORKMANSHIP • SUPREME BRAND
- Centrifugal Chiller, Screw chiller, Modular chiller, AHU, FCU, VRF
- Official distributor, Global project partner.

- WE DESIGN, PRODUCE AND SHIP PRODUCTS WITH YOUR PRIVATE LOGO
- Mini split, Light commercial, VRF, FCU, AHU, Chiller, Package units
- With brand owners' authorization, we provide OEM and ODM service.

SOLUTION

• VRF System Solution

The main reason we created our VRF solution is that most manufacturers can only provide equipment, meanwhile the project owners always looking for a complete solution. We offer one stop solution including VRF drawing design, model selection, instalation material calculation, start up guidance etc. All the equipments, installation material and other parts will be loaded all together in the same containers directly ship to your job site, we make your VRF projects never been so easy.

• Chilled Water System Solution

Have you ever imagined that you can have chillers and all other water system components all together in a single purchase? Here is our solution for you, we can not only provide you full line of chiller and terminal products, but also supply you a complete line of installation materials such as cooling tower, water pump, hydraulic modules, valves, pipes, etc.

• Centralized Controlling Solution

Intelligent control gradually is becoming a key factor for green buildings, our solution for air conditioning provides a perfect connectivity among AC units, BMS system and system administrators. By migrating IOT technology to our industry, we can even realize Cloud-control function for your air conditioners.
